

ESA CALL: SUSTAINABLE AGRICULTURE

ACTIVITY: Demonstration Project

OPENING DATE: 13-10-2023

CLOSING DATE: 13-12-2023

WEBINAR: 25 October 2023, 11:00 - 12:00 CEST

The main objective of the ESA Call for Proposals for Applications Activities in “The sustainable transformation of agriculture through digitalisation and space” is to develop space-based services and applications boosting the sustainable transformation of agriculture by taking advantage of data and innovative technologies.

This Fixed Call for Proposals is intended to support industry in the development of services focused on the **optimisation of agricultural practices that minimise negative environmental impacts in terms of soil degradation, water depletion and contamination, inefficient energy use and loss of biodiversity.**

Agricultural Engineering Community Achieving Visions with Horizon Europe

Are you a post-doctoral researcher or PhD student looking to enhance your knowledge and connect with experts? Look no further – we're excited to invite you to our exclusive monthly online seminar series!

 Mark your calendar: Every month, join us for a stimulating morning session tailored just for you. The Green ERA-Hub Breakfast Club is your passport to cutting-edge research insights, invaluable transferable skills, and a wealth of knowledge on funding opportunities.

 Distinguished experts from academia and industry, and esteemed voices from civil society will grace our virtual stage. This is your chance to engage with senior figures who have paved the way in their respective fields.

🔍 Unveil the Future: Dive into the latest research breakthroughs and sharpen your skill set. Our series of webinars will empower you with the tools and insights you need to thrive in your academic journey.

🌐 Let's Talk Circular: Our inaugural webinar series kicks off with a deep dive into "Circularity in Agriculture". Learn how this pivotal concept is shaping the future of sustainable food systems.

🕒 All sessions start at 10 am CET – a perfect time to nourish your mind and ignite your intellectual curiosity. Be sure to adjust the timing to your local zone.
